How to login into your UNIX account.

1) Launch the Putty program. See the figure below.

2) The Putty Configuration window (see the figure below) will show up.

3) Insert `data.cs.purdue.edu` in the field Host Name (or IP Address), then click Open.
4)

A (UNIX) terminal window will show up. See the figure below. **NOTE: you will see login as: Your-account**

![UNIX terminal window](image)

Login to the Unix system. USE THE SAME PASSWORD YOU USED TO LOGIN IN WINDOWS!
